

World-Class Products Made Even Better With Expert Service.

When you specify MagnaMax^{DVR}® and MagnaPower™ industrial-duty generators, our expert technical support staff will insure your product selection will be performance matched to your application. You will have confidence in knowing that our expertise is available to you from project start to finished installation.

So don't settle for less than world class products and service...specify Marathon brand generators.

MAGNAMAX^{DVR}®

kW 118 – 2370 (60 Hz)
kVA 136 – 2400 (50 Hz)

- Die-cast, single piece rotor
- DVR2000E patented PMG powered digital voltage regulator on both MagnaMax^{DVR}® and MagnaPower™

MAGNAPOWER™

kW 1425 – 3350 (60 Hz)
kVA 1500 – 3350 (50 Hz)

- 6 leads with 4 busbars for easy connection
- Utilizes form wound coils with VPI, even low voltage designs
